## Parents' Questionnaire for Check-up U<sub>4</sub> (for babies aged 3–4 months)

### Dear parents

As parents you are able to help identify developmental problems in your child at an early stage so that these can be treated. Watch the development of your child carefully in order to recognise possible developmental delays.

Please answer the following questions and bring this form together with the yellow check-up booklet to your appointment.

Please remember that a single, unusual reaction does not necessarily mean that there is a developmental problem with your child.

### Observations for the Check-up U<sub>4</sub>

|   |  | Yes                   | No                    |
|---|--|-----------------------|-----------------------|
| 1 | Does your child hold its head up and support itself on its underarms for approx. 30 seconds whilst lying on its stomach? | <input type="radio"/> | <input type="radio"/> |
| 2 | Does your child follow the sound of a rattle with its eyes from one corner of the eye to the other?                      | <input type="radio"/> | <input type="radio"/> |
| 3 | Does your child play with its hand? Can it hold objects and put them into its mouth?                                     | <input type="radio"/> | <input type="radio"/> |
| 4 | Does your child look at an object that it is holding in its hands?   | <input type="radio"/> | <input type="radio"/> |
| 5 | Does your child kick with both legs in turn?   | <input type="radio"/> | <input type="radio"/> |
| 6 | Does your child look predominantly to one side?  | <input type="radio"/> | <input type="radio"/> |
| 7 | Have you noticed a squint in your child?   | <input type="radio"/> | <input type="radio"/> |
| 8 | Can your child locate sounds and turn towards the source of the noise?   | <input type="radio"/> | <input type="radio"/> |
| 9 | Does your child smile when spoken to by a familiar person?   | <input type="radio"/> | <input type="radio"/> |
