## Parents' Questionnaire for Check-up U5 (age 6–7 months)

### Dear parents

As parents you are able to help identify developmental problems in your child at an early stage so that these can be treated. Watch the development of your child carefully in order to recognise possible developmental delays.

Please answer the following questions and bring this form together with the yellow check-up booklet to your appointment.

Please remember that a single, unusual reaction does not necessarily mean that there is a developmental problem with your child.

### Observations for the Check-up U5

		Yes	No
1	Does your child hold its arm up over its playmat for 3 seconds in order to reach out for objects?	<input type="radio"/>	<input type="radio"/>
2	Does your child support itself with its arms stretched on half or fully opened hands?	<input type="radio"/>	<input type="radio"/>
3	Does your child roll from lying on its stomach to its back?	<input type="radio"/>	<input type="radio"/>
4	Does your child play with its feet and put them into its mouth?	<input type="radio"/>	<input type="radio"/>
5	Does your child reach out for objects with its stretched out hand and thumb?	<input type="radio"/>	<input type="radio"/>
6	Does your child reach out specifically for objects, which he or she is offered and does the child take turns with its hands?	<input type="radio"/>	<input type="radio"/>
7	Does your child look for toys, which have fallen down?	<input type="radio"/>	<input type="radio"/>
8	Does your child react differently among familiar people and strangers?	<input type="radio"/>	<input type="radio"/>
9	Do you have the impression, that its hearing is poor?	<input type="radio"/>	<input type="radio"/>
10	Have you noticed a squint in your child?	<input type="radio"/>	<input type="radio"/>
